

Memory Verse Game: Bible Berserko

Roll a dice, then have your child recite the verse in the style that corresponds with the list below. If someone rolls a 6, allow them to make up their own style. When finished, hand the dice to another kid (parent) and repeat.

1. In a robot voice.
2. While doing sit ups.
3. While making a silly face.
4. Like you're sitting in a bathtub filled with ice water.
5. Like you're being chased by a dragon.
6. Make up your own.

Change up the list above to fit your kids ages, likes, and dislikes.

Don't have dice? Call out a number or assign a spot in your house to be a number. Play music and let the kids dance to the spot. When the music stops whichever number they are closest to is how they will recite the memory verse.
